Pitching Record – 2008

The pitching record should be filled out at every game and initialed by the opposing team (*scorekeepers can do this*). Each team will carry this record to every game (*staple it in the back of your scorebook*). Coaches should check the opposing team's pitching record prior to game start to ensure that all coaches are following the pitching rules (*ask to see it occasionally*). The Little League rules also require mandatory days of rest as outlined in the 2008 Little League Rulebook (Regulation VI). Failure to follow the pitching rules or to maintain the pitching log will result in appropriate action (per Little League rulebook) against the team and a warning to the manager. If a second violation occurs the manager will be suspended. A team that can not present an up-to-date pitching record at the beginning of each game shall be deemed not ready to play, and if not ready to play within 15 minutes of the designated starting time of the game, then the team forfeits that game. A forfeit is recorded as a 6-0 loss.

Date of Game	Name of Pitcher	Uniform #	Number Of Pitches	Name of Opposing Team	Score Own	Score Opposing	Signature of Opposing Team
